

DTM-01 CONTACTLESS DIGITAL THERMO METER

FUNCTION

- Temperature measurement
- Temperature unit selection, support between temperature Celsius and Fahrenheit
- Warning threshold adjustment, support warning threshold adjustment
- Support auto power off
- Low voltage reminder, support battery exhaustion reminder

INTERFACES

TECHNICAL SPECIFICATIONS

Dimension	159*89*38
Weight	about 220g
Color	White
Working humidity	≤85% no condensation
Working Temp.	10°C ~ 40°C
Storage Temp.	-40°C ~ +70°C
power: Insetted battery	DC 3V, 2X1.5V AA Battery*2
Measuring temperature range	30.0~50.0°C
Indication Error	From 35.0°C to 42.0°C, error ±0.2°C; From 30.0°C-34.9 to 42.1-50°C, error ±0.3°C
Measuring distance	50mm-150mm
Temperature display resolution	0.1°C
Temperature unit selection	Supports conversion between temperature Celsius and Fahrenheit
Warning threshold adjustment	Support warning threshold adjustment
Power saving function	Support auto power off
Low voltage alert	Support battery exhaustion reminder
